

# **VS VANQUISH SERVICES**

# **CAPABILITY STATEMENT 2025**

# OUR COMPANY

---

Based in Sydney, Vanquish Services is a nationally trusted provider of civil construction solutions. We specialise in projects across the Transport, Power, and Water sectors, delivering outcomes that prioritise safety, compliance, and long-term reliability. Our proven capability and responsive approach enable us to consistently meet client expectations while supporting critical infrastructure across Australia.

Our reputation is built on a strong foundation of industry expertise and a commitment to excellence. With **ISO 9001**, **ISO 14001**, and **ISO 45001** certifications, we embed quality, environmental responsibility, and safety into every stage of our projects.

Our team combines decades of practical experience with a forward-thinking approach, ensuring we deliver infrastructure that is not only built to specification but also designed to serve communities and industries for the long term.

## **CORE VALUES**

---

**Safety,  
Integrity,  
and Excellence.**

At Vanquish Services, our work is guided by three core values that shape every decision, every project, and every client relationship.

**Safety** sits at the centre of everything we do. We maintain the highest standards of occupational health and safety, ensuring that our people, our clients, and the communities we work within are protected at every stage of delivery.

**Integrity** defines how we operate. We are committed to transparency, accountability, and ethical practice, building lasting relationships with clients and stakeholders based on trust.

**Excellence** drives us to go beyond compliance and deliver outcomes that stand the test of time. Through continuous improvement and a commitment to innovation, we ensure every project meets the highest benchmarks for quality, sustainability, and performance.

# OUR SERVICE

 **WATER**

Vanquish Services is experienced in the delivery of water infrastructure projects, including pipelines, pump stations, drainage, and treatment facilities. We apply a strong focus on environmental management and resource efficiency, ensuring works are completed to the highest quality while protecting sensitive ecosystems. Our approach combines technical expertise with innovative solutions, allowing us to deliver critical water assets that improve community resilience and support long-term sustainability.

 **POWER**

In the power sector, we provide specialised civil solutions for underground and overhead electrical infrastructure, substations, and associated facilities. Our team has extensive experience working within live environments and alongside utility providers, ensuring that projects are delivered with uncompromising safety and compliance. Through precision planning and the use of advanced construction techniques, we help strengthen Australia's energy networks while meeting the growing demand for reliability and sustainability.

 **TRANSPORT**

Our expertise in transport infrastructure extends across road, rail, and associated civil works. By integrating detailed planning with proven construction methodologies, we ensure projects are delivered on time and with minimal disruption to surrounding communities. Our capability includes complex traffic management, stakeholder coordination, and strict adherence to transport authority standards, enabling us to deliver resilient networks that support safe and efficient movement for decades to come.

## OUR DIFFERENTIATORS

---

Vanquish Services stands apart through our ability to combine the agility of a growing business with the discipline of established industry leaders. Where many contractors focus solely on delivery, we prioritise responsive communication, proactive problem-solving, and a partnership approach that ensures our clients are supported from planning through to project completion. This focus on relationships and reliability gives our clients confidence that challenges will be managed swiftly and without compromise to quality or safety.

Our edge also lies in the depth of our expertise across the Transport, Power, and Water sectors, backed by ISO-certified systems and industry memberships. By integrating compliance, sustainability, and safety into every stage of our work, we deliver projects that not only meet specifications but also provide long-term value to the communities they serve. Our reputation for consistency, coupled with the ability to mobilise quickly and adapt to client needs, sets us apart in a competitive market.

# OUR ACCREDITATIONS

## 🏆 ISO CERTIFIED

Our company is **ISO 9001 (Quality)**, **ISO 14001 (Environmental)**, and **ISO 45001 (Occupational Health & Safety)** certified, embedding structured systems of governance across every project we deliver. These certifications provide assurance to clients that our work is delivered with consistency, accountability, and an uncompromising focus on safety and sustainability.

## 🏆 FIRE PROTECTION ASSOCIATION

We are members of FPA Australia (Fire Protection Association Australia), reinforcing our technical expertise and compliance within fire safety and protection disciplines. This membership allows us to remain at the forefront of evolving standards, training, and regulatory requirements.

## 🏆 MBA & CCF

We are proud members of the Master Builders Association and the Civil Contractors Federation, ensuring our business is aligned with industry best practice, legislative requirements, and the ongoing development of Australia's construction sector.
